Now You Can Combine Two Winter Heating Programs

Cap Pricing Plan

We have designed our Cap Pricing Plan so you won't have to worry about shifting energy prices. For a nominal fee through the Cap Plan you can get insurance to shield yourself against heating oil price fluctuations. If fuel prices rise, your price never goes above the Cap price during the program period, and if fuel prices drop, your price drops too.

Enroll today and your maximum oil price will be
\$2.06⁹/gal. (Heating Oil)
\$2.16⁹/gal. (Blended)

Program Details

- ▶ A guaranteed maximum price you'll pay for fuel, **you can set your household budget on this price**
- ▶ Protection from rising energy prices
- ▶ If the market falls you will receive the lower price
- ▶ Insurance on your designated gallons all year (**\$200 up-front insurance fee to enroll in the Cap Plan**)
- ▶ Gallons available while supplies last
- ▶ No other discounts apply
- ▶ Delivery in effect until May 18, 2018
